

## 3<sup>rd</sup> Grade Home Learning Calendar Week 6 April 27-May 1

**Students are expected to engage in instructional activities for at least three 30-minute sessions a week for both Language Arts and Math.**

	Subject Area	Activity 1	Activity 2	Activity 3
<b>Essential Learning Activities</b>	<b>Language Arts</b> *Students are expected to read a minimum of 20 minutes each day in addition to activities.	While we read nonfiction this year, we learned how to find the main idea in a passage. We used the "boxes and bullets" organizer to help us get our thoughts together. The main idea goes in the "box" and the details are the bullet points. Here's an example from our unit: <div style="text-align: center; margin: 10px 0;">  </div> <p>Today, you are going to read a nonfiction book on <a href="#">True Flix</a> (Username: valleypark / Password: library). Click on "Animal Kingdom" section and then select the "Birds" book. Read or listen to the book. On page 8, find the main idea of the section "A Swimming Machine". You can use the boxes and bullets organizer to help you organize your thoughts.</p>	Today, you will practice finding the main idea of a nonfiction part of a book again. This time, you are going to get to choose a book about a nonfiction topic that interests you! <p>First, browse the websites below to find a book or article that you would like to read or listen to.</p> <p><a href="#">True Flix</a> (Username: valleypark Password: library)  <a href="#">Pebble Go!</a> (Username: vphawks Password: vp1234)  <a href="#">Abdo</a></p> <p>Choose <i>one section</i> and write down the main idea of that part of the book. Re-read the rubric to try to make your main idea a level 3!</p>	In today's activity you will be reading an article on the coronavirus. After reading the article you will have a worksheet to fill out a summary of the article. There is also a True or False worksheet that is good practice for working on using evidence from the text. You should be able to click on the link for the article to read it and the worksheets will be on your teachers websites. <p style="text-align: center; margin-top: 20px;"> <a href="https://superscience.scholastic.com/etc/classroom-magazines/reader.html?id=46-050120">https://superscience.scholastic.com/etc/classroom-magazines/reader.html?id=46-050120</a> </p>

<b>Optional Learning Activities</b>	<b>Science</b>	<p>This week's science activities will be very similar in structure to the activities from week 5. There will be an attached article with three optional "assignments" each day. We will continue with this structure throughout the duration of "distance learning". When you click the link below each description, it will take you to the appropriate article. This link will also have the vocab and video components which make a total of three "assignments". The description of each article will be in the activity boxes here on the learning calendar. The password is vphawks1.</p> <p>The article is <b>One Cool Seed</b> about seeds. The article explains that not all seeds are small and come in different forms. There is a bonus game called Coconut Seed Game Show. The article is from May 2018.</p> <p><a href="https://sciencespin2.scholastic.com/issues/2017-18/050118.html">https://sciencespin2.scholastic.com/issues/2017-18/050118.html</a></p>	<p>The article is <b>Cutest Little Thief</b> about squirrels. A scientist tries to find out if squirrels steal seeds from each other. There are vocab and video components to this article. The article is from September 2018.</p> <p><a href="https://sciencespin2.scholastic.com/issues/2018-19/090118.html">https://sciencespin2.scholastic.com/issues/2018-19/090118.html</a></p>	<p>This article is <b>Goat in a Tree?</b>. The article is about goats that climb trees to get fruit and help spread the seeds. There are vocab and video components with it. The article is from October 2018.</p> <p><a href="https://sciencespin2.scholastic.com/issues/2018-19/100118.html">https://sciencespin2.scholastic.com/issues/2018-19/100118.html</a></p>
