Dear Valley Park Community and Staff:

The Valley Park School District is beginning an exciting journey to design the school district we hope to create over the next several years, and we need your voice and input.

We invite all Valley Park School District community members to join us in shaping the Valley Park School District's future by completing the 2021 Community Perception Survey. To take the survey, [please click here.](#)

The survey only takes 7-10 minutes to complete and is open to all staff and community members, including those that do not have children enrolled in the district.

Our collaborative process hopes to engage as many stakeholders as possible and is an important step in our process. The survey results will lead to conversations and focus groups later this spring and ultimately help to inform the design of a new strategic plan that will guide our school district into the foreseeable future.

Thank you for taking the time to share your hopes, dreams, and perceptions of the Valley Park School District. Together we can intentionally develop excellence for all learners and create a world of possibilities for our students in an ever-changing world.

Sincerely,

Dr. Tim Dilg  
Superintendent
